FOR FLOORING INSTALLATION PROJECTS
Designed to trim wood door jambs, baseboards, inside corners and under toe kicks

The ROBERTS® Super Six 6" Jamb Saw is a powerful and versatile tool that meets a wide variety of undercutting needs. This saw easily cuts door jambs, baseboards, cabinet toe kicks, inside corners and most hanging doors. The cutting depth is adjustable to prevent cutting into plaster or wall board when trimming baseboards. The Super Six includes a molded carrying case and one 26-tooth, carbide-tipped blade. No matter the flooring project, the ROBERTS Super Six Jamb saw gets the job done right.
